

Ballyclare High School Indoor O 2023

Information for competitors

- The school is mapped at 1:750.
- The map will be on an A3 page, portrait.
- The map is not orientated to magnetic north, but is aligned to the angular shape of the building. This means that magnetic north is +35 degrees from the long side of the page. Ie the map is aligned approximately to the NW.
- The school is a multi-storey building so each level of the building is identified with a floor number with 0 (zero) being the ground floor. Each level is mapped separately and shown with the uppermost floor at the top of the page.
- Staircases which connect levels are identified with a letter in blue on the map on each relevant level.
- Staircases which connect levels also have an arrow in blue pointing upwards.
- Steps which are on the same level on the map do not have an arrow.
- The school grounds including courtyards are also on the map at the ground floor (Level 0), but there will be limited opportunity to go outside.
- External doors which must not be used are shown with a purple bar. Only external doors without a purple bar may be used.
- Corridors with a purple arrow may only be used in the direction of the arrow.
- Outdoors the paved area is shown as a dark brown.
- Indoors accessible areas are shown as light brown.
- Areas of the building which are not to be accessed are shown as building.
- Canopies which are outdoors are shown as canopies.
- Furniture within the school (eg desks, benches etc) has not been mapped, except where there is a visual barrier (eg a library shelf) which is shown as an impassable fence.
- Purple bars indicating a closed door or a temporary barrier must not be crossed by any part of the body.
- The retaining wall symbol is used where on the same level there is a height difference et a stage.
- Doors of classrooms are generally open, but if any are closed where the room is shown as accessible, then these doors may be opened.
- Doors into areas of the building which are shown as inaccessible (dark grey building symbol) will generally be locked, but if not must not be accessed.
- The lights in the school will be on, but some arears have lights which will automatically switch off after a period. Therefore a head torch is recommended.
- To assist with locating of controls, control circles have a dot in the centre.
- Control description will be on the map but will be orientated to the top of the map, rather than north.
- Please take care, particularly on staircases and blind corners.
- The map as used in 2019 is available on the event page on the LVO website: <https://lvo.org.uk/allfixtures/indoor-o-and-club-social/>

Legend

	Impassable building
	Passable building
	Passable canopy (outdoor)
	Paved area (outdoor)
	Impassable wall
	Impassable fence
	Passable wall
	Passable retaining wall
	Passable fence
	Pond
	Water feature
	Statue/monument
